My Hysteroscope is My Stethoscope

www.hysteroscopy2019.com

www.hysteroscopy2019.com

Dear friends and colleagues,

We are proud to invite you to the 2nd Global Congress on Hysteroscopy (GCH) that will take place in Barcelona (Spain), from April 30 to May 3, 2019.

The first congress in 2017 was an absolute success where more than 700 professionals from around the globe devoted 3 whole days, in four parallel rooms, to talk exclusively about Hysteroscopy. What characterized the event was the good atmosphere where a resident could meet and sit next to a "celebrity" professional in a relaxed and comfortable way.

In this 2nd edition, an improved program has been developed in which the most relevant speakers on a global scale participate. The GCH19 will provide you with the opportunity to learn about the latest techniques, clinical advances and international evolution in the practice and treatment of endometrial pathology.

In the GCH19, the open debate will be motivated and a diffusion will be made about the relevant news and information. Emphasis will be placed on the Reproductive Surgery of the endometrial cavity and on consultation procedures, we will follow the campaign started in 2018 "My Hysteroscope is My Stethoscope" with the aim of bringing hysteroscopy to all gynecologists.

This congress has been designed for ALL, even for those who DO NOT know hysteroscopy. We will have 3 parallel conferences:
 * BEGINNERS - with many workshops and hands-on from the best.
 * ADVANCED - enjoying a diversity of topics of maximum interest
 * EXPERTS - where the hysteroscopy of reproduction is developed at the highest level and in collaboration with the best experts.

The Board of the Global Congress on Hysteroscopy includes representatives of ALL international endoscopy societies (ESGE, AAGL, ISGE, APAGE and MESGE) together with a group of relevant and independent hysteroscopists. We believe that there has been a before and after the GCH17, thanks to which international collaborative projects in Hysteroscopy are being carried out, active discussion groups are created with opinion leaders and projects related to hysteroscopy are supported on a global scale.

The organizing committee has endeavored to provide, not only an exceptional scientific program, but with MyGCH, also an excellent opportunity to create a global NETWORK that will allow all participants to form professional links around the world.

You cannot miss the opportunity to attend this event of reference.

Congress Chairmen

Sergio Haimovich (Spain), Luis Alonso (Spain), Attilio di Spiezio (Italy)

Co-Chairs:

- Luis Alonso (Spain)
- Sergio Haimovich (Spain)
- Attilio di Spiezio (Italy)

Scientific Committee:

- Jose Alanis Fuentes (Mexico)
- Linda Bradley (USA)
- Rudi Campo (Belgium)
- Jorge Dotto (Spain)
- Ricardo Lasmar (Brasil)
- Narendra Malhotra (India)
- Osama Shawki (Egypt)

Program Outline ...

Beginners Track

Wednesday 01.05.2019

HYSTEROSCOPY BASICS

- How to set up a hysteroscopic unit
- Vaginoscopic approach
- Management of pain during office hysteroscopy
- Hysteroscopy "hardware"

VISUAL ATLAS

- Normal Hysteroscopy
- Benign Pathology: polyps, myomas, endometritis
- Structural Pathology: myomas, Adhesions, malformations
- Malignant and premalignant pathology
- Game: Do you have a full hysteroscopist vision?

Advanced Track

Wednesday 01.05.2019

STATE OF THE ART

- Office hysteroscopy: state of ART
- Hysteroscopy vs. Imaging Modalities
- FIGO Classification system: The cornerstone of preoperative evaluation
- Anesthesia for Office Based Procedures
- Resectoscopy today

MYOMAS

- Physiology and Importance of the myoma's Pseudocapsule
- Hysteroscopy Myomectomy: respecting the pseudocapsule
- Devices and techniques of myomectomy
- Hysteroscopic Findings and Treatment of Intracavitary Fibroids Following Uterine Fibroid Embolization

UTERINE MALFORMATIONS

- What's new about the uterine malformation classifications?
- Reproductive results of the uterine malformations
- Role of the 3D in the evaluation of the uterine anomalies
- Surgical correction of uterine malformation

FREE COMMUNICATIONS AND NETWORKING

Thursday 02.05.2019

ONCOLOGY

- Hysteroscopic classifications of endometrial cancer
- Endometrial hyperplasia and focal cancer: Preserving fertility surgery
- Hysteroscopic Approach to Tubal Diagnosis of Ovarian Cancer
- Diagnosis and Treatment of Endocervical Lesions by cervicoscopy

CSD / ADENOMYOSIS

- The cesarean scar defect syndrome
- Hysteroscopic management of the CSD
- Adenomyosis: an update
- Cystic adenomyosis

ADHESIONS/INFECTIONS

- Chronic endometritis
- TBC and Hysteroscopy
- Intrauterine adhesions: etiopathogenesis and diagnosis
- Intrauterine adhesions: surgical treatment and how to prevent reformation

PREGNANCY RELATED HYSTEROLOGY

- Performing hysteroscopy during pregnancy
- Hystreroembryoscopy Today
- Ectopic pregnancy and hysteroscopy
- Retained products of conception

Friday 03.05.2019

KEY POINT & HANDS-ON PRESENTATIONS
 FREE COMMUNICATIONS AND NETWORKING

Experts Track

Wednesday 01.05.2019

FERTILITY EXPERTS

- What about the recent published studies?
- Role of hysteroscopy before IVF
- Uterine malformations and hysteroscopy. Can we improve the results?
- Refractory endometrium and Hysteroscopy
- Chronic endometritis and pregnancy rates

FERTILITY EXPERTS

- Adenomyosis and ART: It is really important
- Hysteroscopy and RPL
- Arcuate Uterus: risk for Pregnancy Loss?
- Role of myomas in Failed IVF

FERTILITY EXPERTS

- Understanding the uterus
 - The importance of subtle lesions in fertility patients
 - Hysteroscopic embryo implantation
 - Hysteroscopic assessment of tubal patency
- FREE COMMUNICATIONS AND NETWORKING

Thursday 02.05.2019

DISCUSSION

- Do we must remove any polyp?
- Hysteroscopy and postmenopausal bleeding
- Must we promote the use of hysteroscopy before missed pregnancy?
- What we use after hysteroscopic surgery to prevent adhesions?

NEW TECHNIQUES - NEW DEVICES

- Tissue Removal Systems
- Miniresectoscopes
- Laser
- What's the future?

VIDEO TUTORIAL - SURGICAL TECHNIQUES

- How to treat a septate uterus
- How to treat an isthmocoele
- Myoma respect pseudocapsule
- Cervical pregnancy

VIDEO TUTORIAL - SURGICAL TECHNIQUES

- Asherman syndrome
- Dismorphic uterus
- Cystic adenomyosis
- Retained products of conception
